Dear Parent /Guardian,

Unite is excited to host your student for Environmental Camp. We recognize that this may be the first camp experience for your 5th or 6th grade student. It is our goal to make sure every camper has a safe and enjoyable experience at camp. In order to meet your camper's health needs, please fill out all the forms in this packet and return them to the school before the deadline.

Unite is a non profit organization dedicated to sharing our love for camp and the great outdoors with students. In partnership with North State schools, Unite will provide programming and educational experiences that will reinforce what students learn in the classroom. **Students are under the authority of the school at all times while at Unite Camp.** Just like field trips, your student will be expected to obey the same rules and fall under the same disciplinary systems and consequences that are in place at school. Please prepare your student for a positive camp experience by going over the information in this packet with them. Help them pack for camp using the packing list provided. Discuss the behavior agreement and have them sign it.

The camp schedule will keep campers engaged with a balanced program involving organized activities and hands-on learning. During free time campers will have plenty of options for activity and rest if needed. Meals will be healthy and delicious. Campers will get plenty to eat and will be asked to clean up after themselves. If your child has special dietary needs, please be sure to communicate this ahead of time. Unite will post photo and video of each camp session and make them available on our website for campers and parents to view, download and print at no additional cost.

Unite staff are trained in the principles of first aid and are CPR certified. The camp health supervisor and designated trained school staff member will attend to management of medications and medical needs of campers. Please be sure to note any special medical needs your student may have. Do not send students that are sick, have broken bones or head injuries that have not been treated, pink eye , lice, flu symptoms or other communicable diseases. Each school will conduct a simple departure day screening and collect medication before leaving for camp.
